#For a given course, if the students' strength is greater than 30, the relative grading method shall be adopted. However, if the students' strength is less than 30 the absolute grading shall be followed with the grade range as specified in this column.

For Laboratory courses and Project work absolute grading method is to be followed.

A student is deemed to have passed and acquired the corresponding credits in a particular course if he/she obtains any one of the following grades: "O", "A+", "A", "B+", "B", "C".

'SA' denotes shortage of attendance (as per clause 10.3) and hence prevention from writing the end semester examinations.

"RA" denotes Reappearance (student has failed to pass in that course). Registration is required for that particular course.

"W" denotes **withdrawal** from the end semester examination for the particular course.

The grades RA and W will figure both in Grade Sheet as well as in Result Sheet. In both cases the student has to earn Continuous Assessment marks and appear for the End Semester Examinations as per the Regulations.

If the grade RA is given to a core theory course/Laboratory course, the attendance requirements need not be satisfied, but if the grade RA is given to Project work, the course has to be registered again and attendance requirement (vide clause 11) should be satisfied.

If the grade RA is given to **EEC course (except project work), which are evaluated only through continuous assessment**, the student shall register for the course again in the subsequent semester fulfill the norms as specified in Clause 13 to earn pass in the course. However, attendance requirement need not be satisfied.

14.2. The grades O, A+, A, B+, B and C obtained for Industry Oriented Courses, Value added courses and online courses shall figure in the grade sheets. The other grades are RA and SA will not figure in the grade sheet for such a course.

14.3. Grade Sheet

After results are declared, Grade Sheets will be issued to each student which will contain the following details:

- i. The list of courses registered during the semester and the grades scored
- ii. The Grade Point Average (GPA) for the semester
- iii. The Cumulative Grade Point Average (CGPA) of all courses registered from first semester onwards.
- iv. GPA for a semester is the ratio of the sum of the products of the number of credits for courses acquired and the corresponding points to the sum of the number of credits for the courses acquired in the semester. CGPA will be calculated in a similar manner, considering all the courses registered from first semester.

$$\text{GPA/CGPA} = \frac{\sum_{i=1}^n (C_i * GP_i)}{\sum_{i=1}^n C_i}$$

where

C_i – is the Credits assigned to the course

GP_i – is the point corresponding to the grade obtained for each course

n – is number of all courses successfully cleared during the particular semester in the case of GPA and during all the semesters in the case of CGPA

CGPA will be calculated in a similar manner, considering all the courses enrolled from First semester. **RA** grade will be excluded for calculating **GPA** and **CGPA**.
